

## STUDY POINTS

# Abdominopelvic Module

---

*MyEMCert study points can be used to focus areas of study and preparation. The study point does not contain specific information that would lead you to the diagnosis or correct answer but would instead direct you to learning and reference materials.*

### Abdominopelvic Module Study Points

#### Abdominal-Intestinal

- Clinical presentation and characteristics of abdominal pain
- Clinical presentation and characteristics of abdominal aortic aneurysm
- Evaluation of patients with gastrointestinal (GI) presentations
- Diagnostic evaluation of acute abdominal pain
- Diagnostic evaluation of upper abdominal pain
- Diagnostic imaging for patients with abdominal pain
- Evaluation and treatment right lower quadrant pain with fever
- Evaluation and treatment of acute diverticular disease
- Evaluation and treatment of systemic food-borne illness
- Evaluation and treatment of acute pancreatitis
- Evaluation and treatment of post-operative complications of GI surgery
- Evaluation and treatment of complications of gastric bypass
- Evaluation and treatment of spontaneous bacterial peritonitis
- Treatment of infectious disorders of the GI tract
- Treatment of epigastric abdominal pain
- Treatment of patients with recurrent flank pain
- Treatment of upper GI bleeding
- Treatment of a perforated viscus
- Treatment of male patients with lower abdominal pain
- Treatment of abdominal pain in the immunocompromised patient
- Treatment of diarrhea
- Evaluation and treatment of bowel obstruction

#### Children

- Diagnostic evaluation of pediatric abdominal pain

## **Rectal**

- Treatment of anorectal pain
- Treatment of rectal bleeding
- Treatment of rectal foreign bodies

## **Hepatobiliary**

- Complications of liver disease
- Evaluation and treatment of acute gallbladder disease

## **Genitourinary-Renal**

- Identify patients who are high-risk for developing pyelonephritis
- Treatment of genitourinary infections
- Treatment of pyelonephritis
- Treatment of flank pain in pregnancy
- Treatment of patients with recurrent flank pain
- Evaluation and treatment of dysuria
- Evaluation and treatment of urinary retention
- Treatment of urinary tract obstruction
- Evaluation and treatment nephrolithiasis
- Evaluation and treatment of ureterolithiasis
- Evaluation of suspected sexually transmitted diseases
- Treatment of sexually transmitted disease
- Identify causes of penile lesions based on their presentation
- Treatment of priapism
- Complications of prostate surgery and treatment
- Treatment of complications of bladder decompression
- Recognize need for consultation in patient with complications from urologic surgery
- Evaluation and treatment of adult scrotal pain

## Children

- Genitourinary evaluation in pediatrics
- Diagnostic testing and management for pediatric acute scrotum

## **Gynecologic**

- Diagnostic evaluation of vaginal bleeding
- Treatment of dysfunctional uterine bleeding
- Diagnostic evaluation and treatment of pelvic pain
- Diagnostic evaluation of ovarian disorders
- Diagnostic evaluation and treatment of ovarian torsion
- Diagnostic evaluation and treatment of tubo-ovarian abscess
- Risk factors for sexually transmitted infections
- Treatment of sexually transmitted infections
- Treatment of pelvic inflammatory disease
- Evaluation and treatment of patients with vaginal lacerations

### **Pregnancy and post-partum**

- Diagnostic evaluation of vaginal bleeding in the pregnant patient
- Diagnostic evaluation of vaginal bleeding in the first trimester
- Evaluation of abdominal pain in pregnancy
- Treatment of abdominal pain in pregnancy
- Treatment of pain in pregnancy
- Treatment of flank pain in pregnancy
- Evaluation and treatment of the pregnant trauma patient
- Treatment of infection in the pregnant patient
- Evaluation of the assisted reproductive pregnancy
- Treatment of gallbladder disease during pregnancy
- Post-partum complications
- Treatment of postpartum C-section complications
- Treatment of post-partum infections
- Causes of post-partum vaginal bleeding

### **Miscellaneous**

- Evaluation of the sickle cell patient
- Evaluation of back pain
- Abdominal causes of chest pain
- Cardiovascular causes of abdominal pain
- Presentation of diabetic ketoacidosis
- Diagnostic findings in diabetic ketoacidosis
- Antidotes to treat poisonings
- Recognize arachnid envenomation
- Treat complications of anticoagulants
- Treatment of CO toxicity
- Recognition of alcoholic ketoacidosis
- Treatment of alcoholic ketoacidosis
- Treatment of alcohol withdrawal
- Diagnosis and treatment of environmental exposures
- Treatment of mononucleosis
- Treatment of cardiac arrest
- Best practices for delivering bad news
- Evaluation of decisional capacity

**January 2023**
